

November 17, 2018

Dear Friend in Sports and Recreation,

Please accept this letter as a positive recommendation from Swimming Canada for Myrtha Pools.

Myrtha's high-quality products are unmatched, Myrtha Pools has repeatedly earned our high praise and respect based on a relationship that has grown over the last 15 years. Myrtha Pools is a trusted and respected partner with Swimming Canada and is our pool of choice. We use facilities all across Canada that have a Myrtha Pool and their quality and consistency is exemplary.

Myrtha was contracted by the Organizing Committee of the 2005 World Championships in Montreal, Canada, as well as three subsequent Canadian Olympic Trials venues (2008, 2012, 2016) in Montreal and Toronto plans for another in 2020 in advance of the Tokyo Olympics. Myrtha Pools was also the provider for 2005 Montreal FINA World championships the 2014 FINA Montreal World Masters event and the 2016 FINA World Short course in Windsor. The facilities are too numerous to count but it's an indication of the quality and consistency of the products they provide.

Swimming Canada has experienced complete satisfaction with the installation work undertaken by Myrtha at each of our events, and the pools have been in full compliance with Swimming Canada's applicable Rules and Regulations necessary for championship meets. Once built, Myrtha's pools have been part of incredibly impressive sites across Canada and their long term viability is amazing from a quality and maintenance perspective.

Swimming Canada has seen numerous permanent in-ground Myrtha projects installed throughout the country and world wide. They are so versatile that they can create any kind of pool to suit the needs of a community long term. We often speak of their Olympic Pools but they are so versatile they can provide any type to meet the needs of a community. These projects have proven to be assets to the aquatics community and our membership. We would recommend that every owner building a pool always consult Myrtha Pools and the consulting they can provide.

What you may not know is what you will get in addition to dealing with Myrtha Pools. I have outlined them below:

- Myrtha is very professional in everything that they do from simple tasks to complex multi team management
- Myrtha can take on a leadership role easily and they work hard to lead and motivate teams to attain objectives while working towards a high level of quality. This is a tremendous asset when working with companies who do not fully grasp the complexities of building Aquatic Facilities.
- Myrtha is organized. They plan ahead, they create a path for success and make the necessary adjustments along the way.

They are a tremendous organization with wonderful staff and it is my pleasure to recommend them.

Sincerely yours,
