Dear Sir/Madam:

Please accept this letter as a positive recommendation from USA Swimming for Myrtha Pools. Due to its professionalism, high-quality product and unmatched pedigree, Myrtha Pools has earned our high praise and respect based on a relationship that has grown over the last 15 years.

Our first true partnership began in 2003, when Myrtha was contracted by the Organizing Committee of the 2004 U.S. Olympic Team Trials – Swimming to place two pools in a parking lot in Long Beach, California. Since then, Myrtha has installed countless other competitive facilities, including the 2004 Short Course World Championships in Bankers Life Fieldhouse—home of the Indiana Pacers, the 2005 World Championships in Montreal, Canada, as well as three subsequent U.S. Olympic Trials venues (2008, 2012, 2016) in Omaha, Nebraska, with plans for another in 2020 in advance of the Tokyo Olympics.

USA Swimming has experienced complete satisfaction with the installation work undertaken by Myrtha at each of our events, and the pools have been in full compliance with USA's applicable Rules and Regulations necessary for championship meets. Once built, Myrtha's pools have been part of incredibly impressive sites, as witnessed in Omaha, where two pools were constructed for the Olympic Trials within a 16-day timeframe in the CenturyLink Center Omaha.

Additionally, USA Swimming has also seen numerous permanent in-ground Myrtha projects installed throughout the country. These projects have proven to be assets to the aquatics community and our membership. We would recommend that every owner building a pool strongly consider Myrtha technology.

In closing, USA Swimming's relationship with Myrtha Pools has been extremely positive. We have a strong belief that the Myrtha product is superior, and gives athletes every opportunity to reach their full potential. We are tremendously excited about our organizational partnership, and are ready and willing to answer any questions you have about Myrtha Pools.

Thank you.

Sincerely,

Mike Unger
Chief Operating Officer
